

INDEPENDENT · CARGO OWNER REPRESENTATION

The Commercial Freight Desk Behind Industrial Supply Chains

Most industrial companies move enough cargo to require executive-level freight expertise — but not enough to justify building a dedicated commercial freight department. **Pelorus fills that gap.** We embed with cargo owners as an extension of their commercial organisation, and we own no vessels, terminals or warehouses — so we represent one interest only: **yours.**

OCEAN · BARGE · RAIL · ROAD · TERMINAL & STORAGE

WHAT WE DO

Three jobs, across the full freight cycle.

One integrated desk on the cargo owner's side. We don't split the cycle: if we fix it, we run it.

01 — COMMERCIAL

Freight Strategy & Chartering

Buying your freight well.

- ◆ Market guidance & timing
- ◆ Ocean, barge & inland sourcing
- ◆ COA development & freight negotiation
- ◆ Charter-party review & support

02 — OPERATIONAL

Execution & Operations

Running it clean.

- ◆ Carrier & partner coordination
- ◆ Terminal & cargo-flow management
- ◆ Execution, nomination to discharge
- ◆ Real-time commercial oversight

03 — GOVERNANCE

Commercial Oversight & Recovery

Proving & protecting the result.

- ◆ Freight cost benchmarking
- ◆ Laytime & demurrage control
- ◆ Claims oversight & recovery
- ◆ Performance & margin reporting

HOW WE WORK

The model is the difference.

01 Embedded & exclusive

We become an extension of your commercial organisation — a standing desk exclusive to you within your lanes, not a vendor re-briefed lane by lane.

02 Independent by design

No freight spreads, carrier commissions or terminal rebates. We represent cargo owners only — our objective is to reduce your cost and protect your margin.

03 Built for the long term

We build commercial partnerships measured over years, not transactions. Desk & Program engagements begin with a 12-month minimum.

WHO WE SERVE

Companies moving cargo — not building freight teams.

Recurring industrial cargo — cement, aggregates, steel, metals, fertilizer, agriculture, mining, forest products, energy & project cargo — across bulk, breakbulk, project & general cargo.

Manufacturers & producers

Traders & distributors

Importers & exporters

Terminal operators

Project developers

Cargo owners & purchasers

Recurring industrial cargo

Project & breakbulk movers

No dedicated freight desk

WAYS TO ENGAGE

Three ways to work with us — all built to last.

The commercial discipline is the same at every level. What changes is how deeply we're embedded in your organisation.

RECOMMENDED

Commercial Freight Desk

Your outsourced commercial freight department — an extension of your commercial organisation across every mode, contract and partner. 12-month minimum.

PROGRAM

Freight Program Management

Ongoing management of recurring import, export or industrial cargo programmes and long-term freight procurement. 12-month minimum.

ADVISORY

Strategic Supply Chain Advisory

Project-based consulting — terminal, trade-lane & procurement strategy, commercial due diligence & freight benchmarking.
